

Es gibt hier ein Muster!

Ein blauer Fisch, ein lila Fisch... Ein blauer Fisch, ein lila Fisch... Das wiederholt sich...

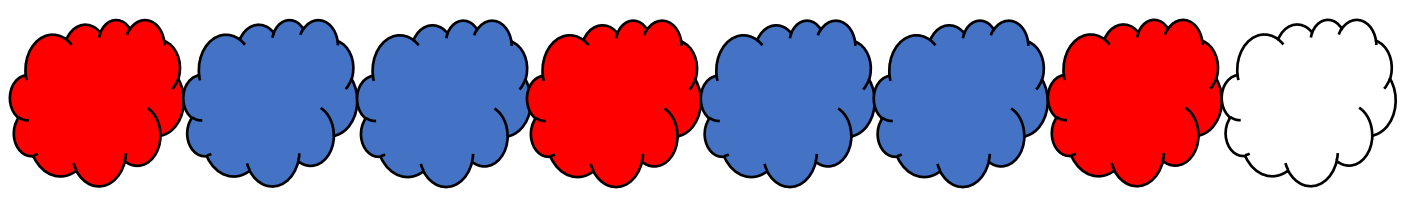

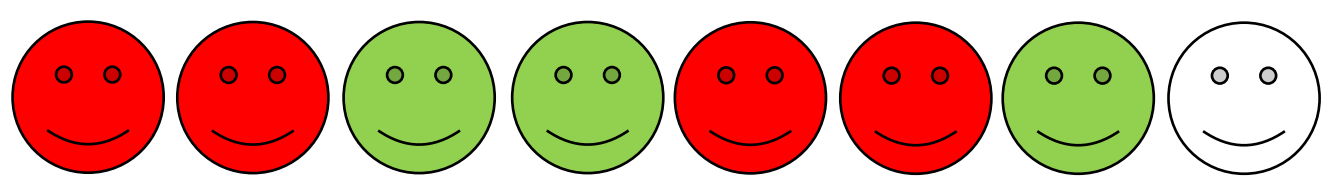

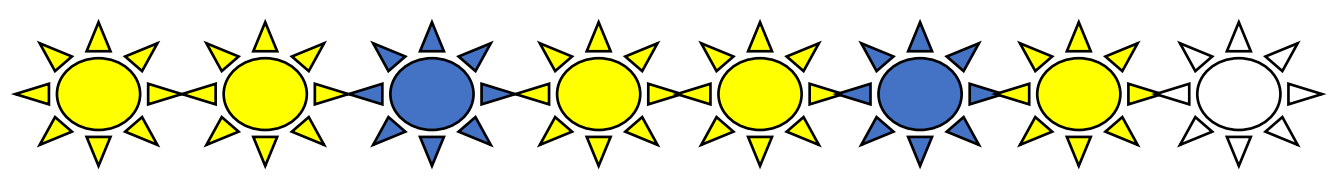

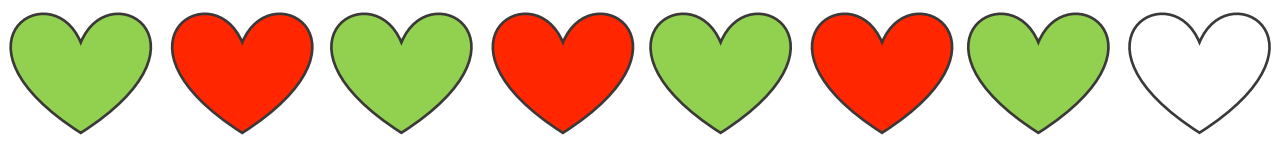

1. Beschreibe jedes Muster.

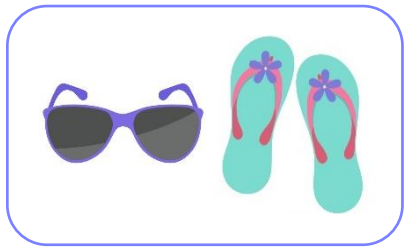

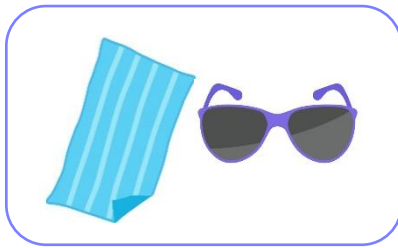

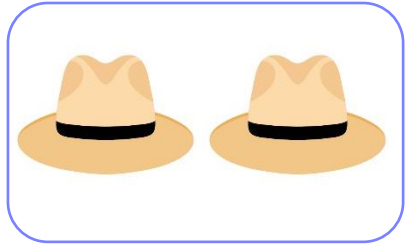

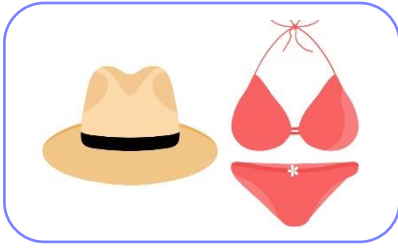

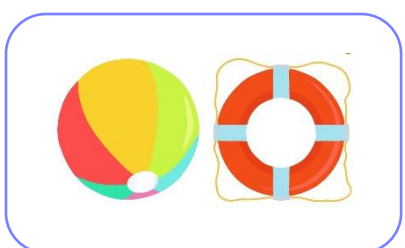

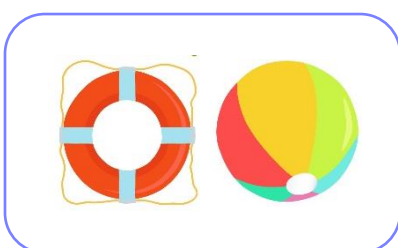

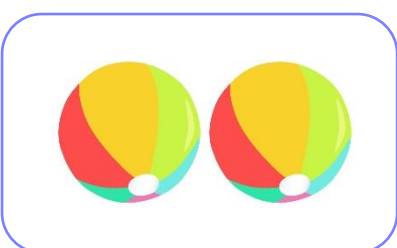

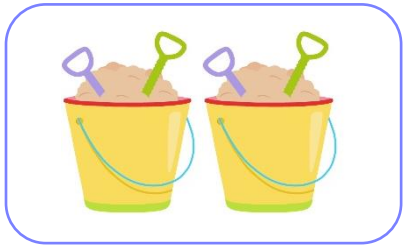

2. Sieh dir das Muster genau an und male die letzte Form in der richtigen Farbe aus.

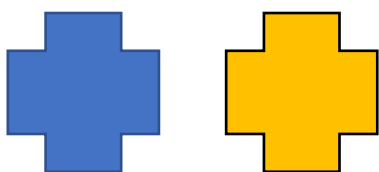

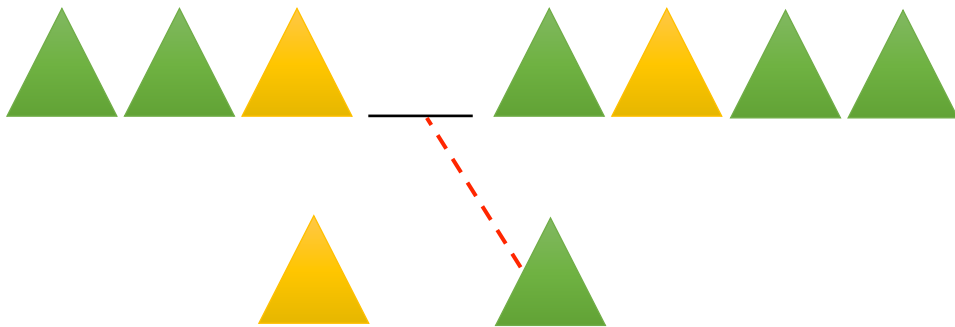

3. Kreise das Bild ein, das als nächstes im Muster kommt.

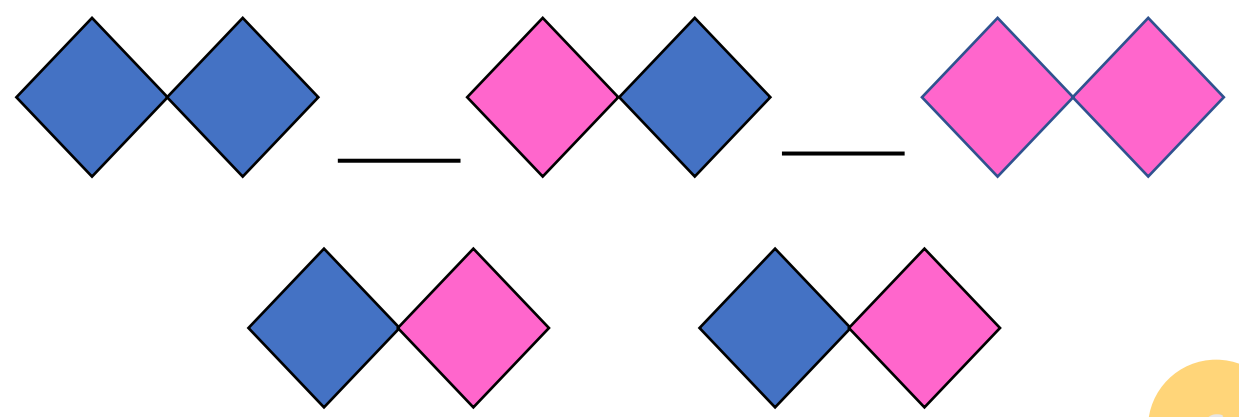

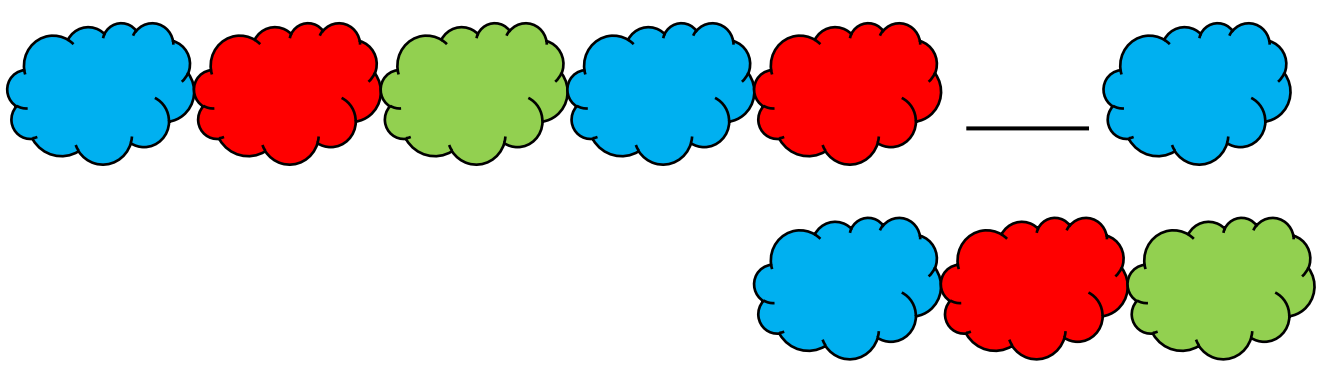

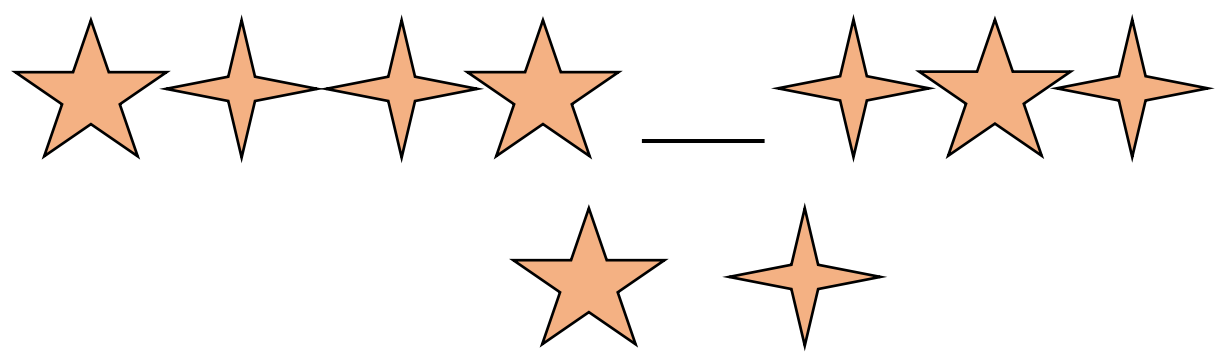

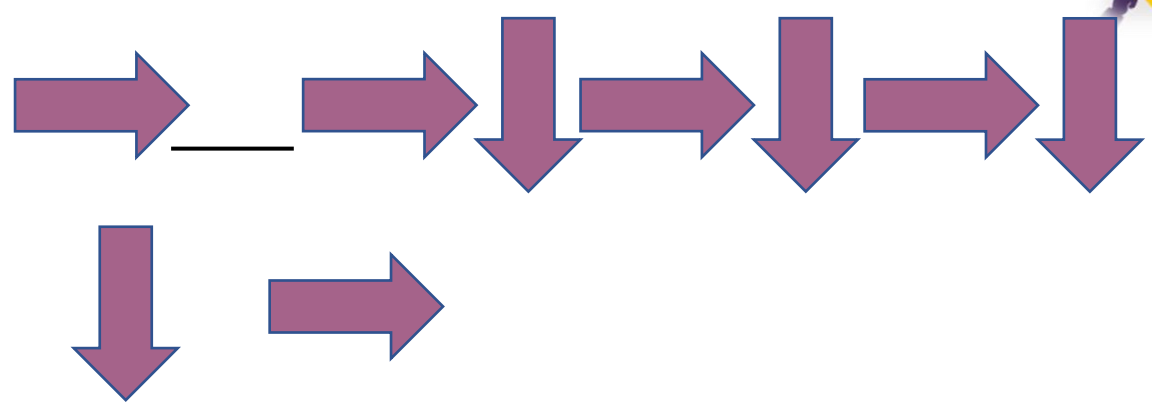

4. Zeichne eine Linie, um die richtige Form im Muster zu platzieren.

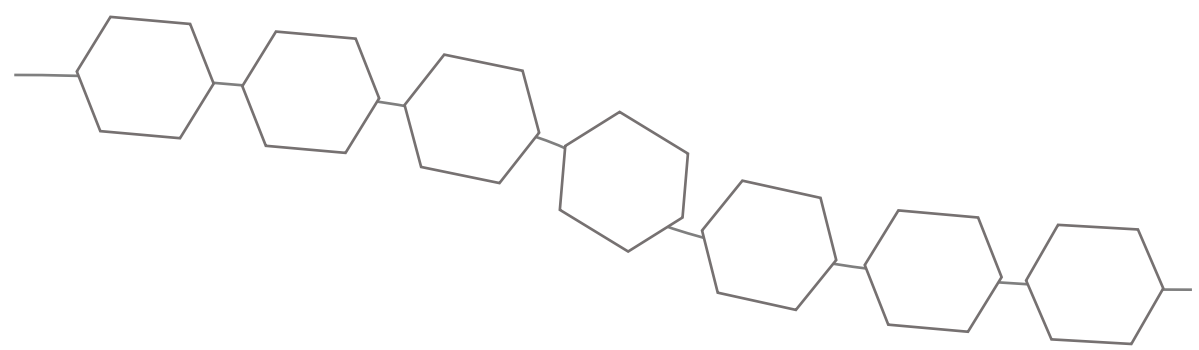

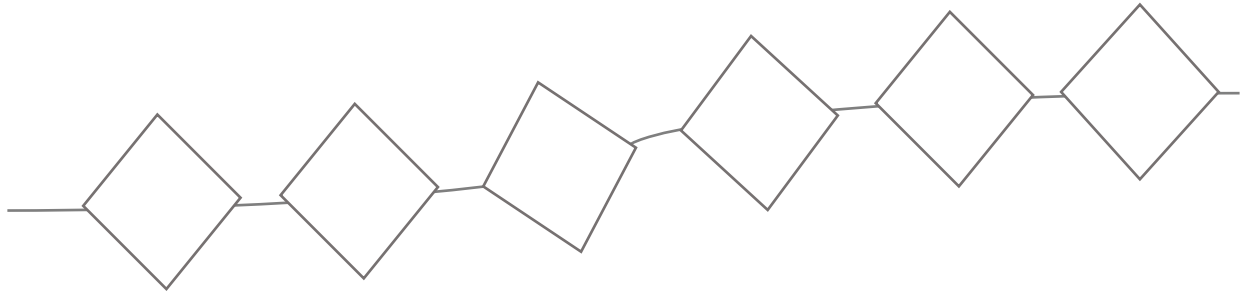

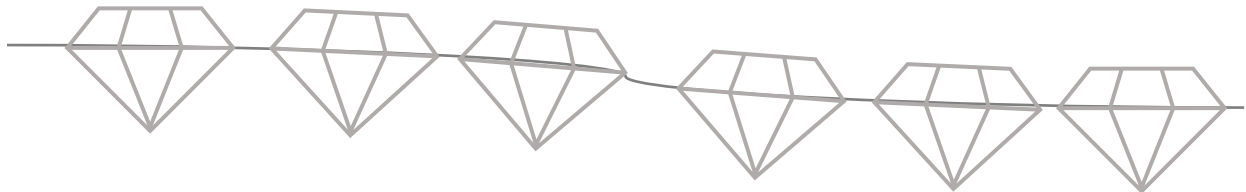

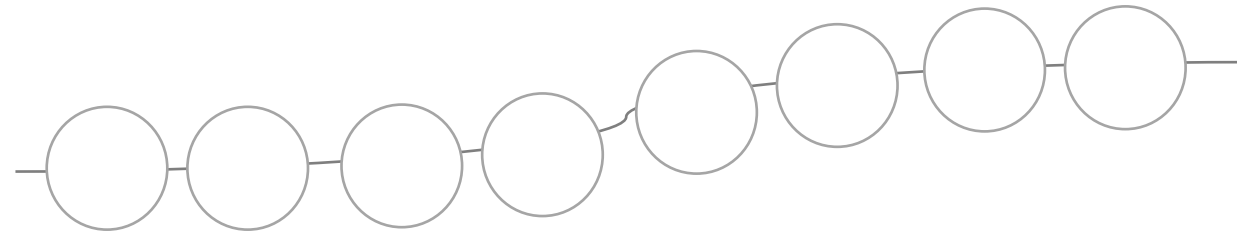

Beispiel:

5. Male die Formen an, um deine eigenen Muster zu erstellen.

6. Kreise das Muster ein, das der gleichen Regel folgt wie das Muster in der ersten Zeile.
