

1. Draw the dots needed to complete the five frame, as shown in the example.

Example:

$$4 + 1 = 5$$

$$3 + \square = 5$$

$$0 + \square = 5$$

$$2 + \square = 5$$

$$5 + \square = 5$$

$$1 + \square = 5$$

2. Draw the dots needed to fill in the ten frame.

Example:

$$5 + 5 = 10$$

$$6 + \square = 10$$

$$4 + \square = 10$$

$$2 + \square = 10$$

$$7 + \square = 10$$

$$9 + \square = 10$$

$$0 + \square = 10$$

### 3. Complete the sentences.

Example:

There are 4 cubes. I have to add 6 more cubes to reach 10.

7 and \_\_\_\_\_ complete ten.

2 and \_\_\_\_\_ complete ten.

9 and \_\_\_\_ complete ten.

3 and \_\_\_\_ complete ten.

5 and \_\_\_\_ complete ten.

0 and \_\_\_\_ complete ten.

7 and \_\_\_\_ complete ten.
